ABOUT

I enjoy building websites that focus on accessibility & responsiveness. In addition to my professional developer experience, I have prior experience in technical theatre, and have developed a sharp attention to detail & excellent communication skills. I bring the ability to work directly with clients, listen to their needs attentively, and bring their vision for the project to life!

PROJECTS:

PERFECT PLAYLIST PROCUREMENT

React | RESTful API | SASS | Firebase

[GIT REPO](#) | [LIVE](#)

Using Deezer's API, a user adds a random song from a selected artist to a global playlist. Users can search for artists by genre, or by searching for their name

THE DIGITAL CINEPHILE

HTML | SASS | CSS | JavaScript | RESTful API

[GIT REPO](#) | [LIVE](#)

A movie/TV recommendation app, built with the TMDB API, which displays a gallery of recommended movies and/or TV Shows based on user input. The website uses multiple API calls to display each recommended film's/TV Show's poster, official trailer (if available), user rating, and plot overview.

THE NYGMA MACHINE

React | RESTful API | SASS | Firebase

[GIT REPO](#) | [LIVE](#)

A randomly generated maze game that, when completed, shares a piece of advice, provided by the AdviceSlip API, based on a keyword selected by the user. The user earns a score, based on the number of steps they take to complete the maze, and the difficulty they selected, which is either displayed on a "Hall of Fame" or "Hall of Shame"

EXPERIENCE

WEB DEVELOPER

Klick Katalyst | Jan 2022 - Nov 2022

- Created clean, client-side code for fully-featured web applications, banner advertisements, and interactive visual aids (IVAs) in a fast-paced agency environment while collaborating with editorial and quality assurance teams to ensure the projects met the clients' requests and followed the important regulations for advertising pharmaceutical products.

USHER - ED MIRVISH & CAA THEATRE

Ed Mirvish Enterprises Ltd | Sept 2019 - Mar 2020

- Maintained a welcoming environment by positively engaging with over 100 patrons per performance, communicating important information to the audience, and resolving any conflicts or issues that a patron might encounter.

OFFICE ASSISTANT

Vaughan Pediatric Clinic | May 2012 - August 2015

- Aided with developing the clinic's digital face by scanning the patients' files into a digital library, performing regular maintenance on the clinic's website via Wordpress, and assisting with the development of their social media presence.
